

OUTSOURCE FACILITY SOLUTIONS

SERVING FACILITIES SUPPORTING ADVANCED TECHNOLOGIES

Who We Are

Outsource Facility Solutions is a unique organization providing comprehensive facility services to Colorado's life science industries. With a mission to serve to the Fitzsimons Redevelopment Authority and its clients, OFS is headquartered at the Bioscience Park.

What We Offer

OFS provides facility management, daily operations, project management, EH&S consulting, and maintenance services. With experience in environments including clinical, biomedical research and GMP manufacturing, OFS accurately maintains and troubleshoots systems and equipment vital to facility operations. OFS can provide full time or interim assistance for on-site facility concerns or act as a compliment to existing resources.

A single point of contact system, heightened communication and a collaborative approach afford clients optimal control of their facilities.

Call us to hang a white board, repair a refrigerator, or install an alarm system to monitor all of your critical equipment. We offer structured preventive maintenance contracts and alarm response services.

Call us 1st for all your facility and equipment needs. There is never a charge unless we are able to fix the problem.

Leadership

Outsource Facility Solutions is owned and managed by Mark Nissenbaum. Formerly manager of operations for Biostruct, a nationally recognized leader in the construction and maintenance of high tech facilities, Mark brings years of experience and professional expertise to meeting clients needs.
